BETA GLASS PLC

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Certification of Unaudited Interim Financial Statements

We hereby certify that:

a) We, the undersigned have reviewed the Unaudited Interim Financial Statements of Beta Glass Plc (“the Company”) for the nine months period ended 30 September 2025.

Based on our knowledge as officers of the Company, the Interim Financial Statements do not:

- i. contain any untrue statement of material fact, or
- ii. omit to state a material fact, which would make the statement misleading in the light of the circumstances under which the statement was made.

b) Based on our knowledge, the Interim Financial Statements and other financial information included in the quarterly report fairly represent in all material respects, the financial conditions and results of operations of the Company as of, and for the period presented in the report.

c) We, the undersigned:

- i. are responsible for establishing and maintaining controls.
- ii. have designed such internal controls to ensure that material information relating to the Company is made known to us by others within those entities particularly during the period in which the periodic reports are being prepared.
- iii. have evaluated the effectiveness of the Company’s internal controls as of date within 90 days prior to the report.
- iv. have presented in the report our conclusions about the effectiveness of their internal controls based on their evaluation as of that date.

d) We have disclosed to the external auditors of the Company and the Audit Committee:

- i. all significant deficiencies in the design or operation of the internal controls which would adversely affect the Company’s ability to record, process, summarize and report financial data and have identified to the Company’s Auditors any material weakness in internal controls, and
- ii. any fraud, whether or not material, which involves management or other employees who have a significant role in the Company’s internal controls.

e) There are no significant changes in internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weakness.

Mr. Alexander Gendis

Notes to the Unaudited Interim Financial Statements

1 General information

Beta Glass Plc (“the Company”) manufactures, distributes and sells glass bottles and containers for the leading soft drinks, breweries, wine and spirit, pharmaceutical, food and cosmetics companies. The Company has manufacturing plants in Agbara, Ogun State, and in Ughelli, Delta State. Beta Glass Plc exports to some countries including Ghana, Burkina Faso, Guinea, Liberia and Angola.

The Company is a public limited company, listed on the Nigerian Exchange Group (NGX) and incorporated and domiciled in Nigeria. The address of its registered office is 5th Floor, Churchgate Tower 2, Plot PC31, Churchgate Street, Victoria Island, Lagos State, Nigeria.

Beta Glass Plc is a subsidiary of Frigoglass Industries (Nigeria) Limited (the parent Company), which holds 61.9% of the ordinary shares of the Company. The ultimate controlling party is Frigo DebtCo Plc (incorporated in the United Kingdom). All press releases, annual reports and other information are available at the website of Beta Glass Plc: www.betaglass.com.

2 Summary of material accounting policies

2.1 Basis of preparation

These financial statements are the stand-alone financial statements of the Company.

The financial statements have been prepared in accordance with IFRS Accounting Standards, as issued by International Accounting Standards Board and in accordance with requirements of Financial Reporting Council of Nigeria (Amendment) Act 2023 and provisions of Companies and Allied Matters Act (CAMA), 2020. These interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise require in a complete set of financial statements and should be read in conjunction with 2024 annual report. 2024 annual report and audited financial statements can be accessed via this link: <https://www.betaglass.com/investor-relations/financials/>. Differences that may exist between the figures of the financial statements and those of the notes are due to rounding. Wherever it was necessary, the comparative figures have been reclassified to be comparable with the current year’s presentation.

The financial statements have been prepared on a historical cost basis except for inventories at lower of cost and net realizable value, zero depreciation for land, and financial assets and financial liabilities measured initially at fair value and subsequently at amortized cost.

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires the Directors to exercise judgement in the process of applying the Company’s accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Company’s financial statements therefore present the financial position and results fairly. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

The financial statements comprise the Statement of Financial Position, the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Changes in Equity, the Statement of Cash Flows and the Notes to the Unaudited Interim Financial Statements.

The financial statements have been prepared in Naira and all values are rounded to the nearest thousand (N'000), except where otherwise indicated.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.1 Basis of preparation – Continued

2.1.1 Going concern

The Company's management has assessed its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

2.1.2 Changes in accounting policies and disclosures

New standards, amendments and interpretations adopted by the Company

The accounting policies adopted in the preparation of the interim financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2024, except for the adoption of new standards effective as of 1 January 2025.

The Company has not early-adopted any standard, interpretation or amendment that has been issued but not yet effective.

Lack of exchangeability – Amendments to IAS 21

In August 2023, the IASB issued amendments to IAS 21 'The Effects of Changes in Foreign Exchange Rates' to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The Company is currently assessing the impact of the amendments to determine the impact they will have on the Company's accounting policy disclosures.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company in the current or future reporting period and on foreseeable future transactions.

2.2 Segment reporting

Operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segment, has been identified as the Board of Directors of Beta Glass Plc.

2.3 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional currency and presentation currency of Beta Glass Plc is the Nigerian Naira (N).

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at the reporting date at exchange rates of monetary assets and liabilities denominated in currencies other than the Company's functional currency are recognized in the foreign exchange gain or loss in the profit or loss account.

Foreign exchange gains and losses are presented in the statement of profit or loss as foreign exchange gain or loss.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.4 Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. All other repairs and maintenance costs including costs of property, plant and equipment below N50,000 are charged to profit or loss during the financial period in which they are incurred.

Land and other Property, Plant and Equipment under construction are not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

	%
Land	Nil
Building	3
Plant and machinery:	
- Factory equipment and tools	10
- Quarry equipment and machinery-	20
- Glass moulds	50
- Other plant and machinery	10
Furnaces	14
Motor vehicles	20
Furniture, Fittings and equipment:	
- Office and house equipment	15
- Household furniture and fittings	20
- Computer equipment	25
Assets under Construction	Nil

The assets' residual values and useful lives and method of depreciation are reviewed and adjusted, if appropriate, at the end of each reporting date.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss and other comprehensive income when the asset is derecognised.

In the case where an asset's carrying amount is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference (impairment loss) is recorded as expense in profit or loss.

Gains and losses on disposal of property, plant and equipment are determined by the difference between the sales proceeds and the carrying amount of the asset. These gains and losses are included in the profit or loss.

Interest costs on borrowings specifically used to finance the acquisition of property, plant and equipment are capitalized during the period required to prepare and complete the asset for its intended use. Other borrowing costs are recorded in the profit or loss as expenses. There have been no qualifying assets in both periods presented in the financial statements.

2.5 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.8 Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.8.1 Financial assets - initial recognition, classification and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are classified at initial recognition as amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. Except for trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policies on revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

2.8.2 Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- a. Financial assets at amortized cost (debt instruments);
- b. Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments);
- c. Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments);
- d. Financial assets at fair value through profit or loss.

The Company's financial assets include financial assets at amortised cost.

2.8.3 Financial assets at amortised cost (debt instruments)

The Company measures financial assets at amortised cost if both of the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets to collect contractual cash flows, and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost include trade receivables, staff advances, receivables from related parties, and cash and bank balances.

The Company did not own any financial assets that can be classified as fair value through profit and loss or held for trading financial assets during the periods presented in these financial statements.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.8.4 Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- a. The rights to receive cash flows from the asset have expired, or
- b. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Company has transferred substantially all the risks and rewards of the asset, or (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

2.8.5 Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms (if any).

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company calculates ECLs based on three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.8.5 Impairment of financial assets – Continued

The mechanics of the ECL calculations are outlined below and the key elements are as follows:

PD - The Probability of Default is an estimate of the likelihood of default over a given time horizon.

EAD - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise.

LGD - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Company would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

When estimating the ECLs, the Company considers three scenarios (a base case, an upside case, a downside case). Each of these is associated with different PDs, EADs and LGDs. In its ECL models, the Company relies on a broad range of forward-looking information as economic inputs, such as:

- GDP growth
- Oil price
- Exchange rate
- Inflation rate

2.8.6 Write-offs

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to profit or loss.

2.9 Financial liabilities

Financial liabilities are at amortized cost. These include trade and other payables and loan and borrowings.

Recognition and measurement

Trade payables are initially recognized at the amount required to be paid, less, when material, a discount to reduce the payables to fair value. Subsequently, trade payables are measured at amortized cost using the effective interest method.

Loan and borrowings are recognized initially at fair value, net of any transaction costs incurred, and subsequently at amortized cost using the effective interest method. These are classified as current liabilities if payment is due within twelve months. Otherwise, they are presented as non-current liabilities.

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. The Company has given financial guarantees to Note holders on behalf of Frigo Debt Co Plc as disclosed in Note 30.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of IFRS 15.

The loss allowance is recognized as a provision.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the profit or loss.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.10 Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.11 Inventories

Inventories are recorded at the lower of cost and net realisable value. The cost of inventory includes expenditure incurred in acquiring the inventory, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable selling expenses.

Raw and packaging materials is measured based on purchase cost including transportation and clearing costs on a weighted average basis. The cost of finished goods and work in progress is determined using weighted average cost of raw and packaging materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition.

The cost of engineering spares and other consumables is determined using the weighted average method. Goods in transit are based on purchase cost incurred to date.

Allowance is made for excessive, obsolete and slow-moving items. Write-downs to net realizable value and inventory losses are expensed in the period in which the write-downs or losses occur.

2.12 Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment. A provision for impairment for trade receivables is established when there is objective evidence that the Company will not be able to collect all the amounts due according to the original terms of the receivables. Trade receivable is impaired using a provision matrix to calculate Expected Credit Loss (ECL). The Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

Subsequent recoveries of amounts previously written off are credited against administrative expenses in profit or loss.

2.13 Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.14 Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale are added to the cost of those assets, until such a time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

No borrowing costs were capitalised as at reporting date (2024: Nil) as the company had no qualifying assets.

2.15 Corporate income tax

2.15.1 Current income tax

The tax for the period comprises current, education and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is recognised in other comprehensive income or directly in equity, respectively.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted at the reporting date. The Company Income Tax (CIT) rate is 30%

Education Tax (Tertiary Education Tax - TET) is 3% of assessable profit calculated for the purpose of Company Income Tax (CIT).

2.15.2 Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled, or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited to other comprehensive income or equity, in which case the deferred tax is also dealt with in other comprehensive income or equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax liabilities on a net basis.

Deferred tax assets and liabilities are presented as non-current in the statement of financial position.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.16 Employee benefit obligation

The company operates a defined contribution pension plans for its employees.

A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. The company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

The Company pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

2.17 Export expansion grant

Export Expansion Grants (EEG) from the government are recognized at fair value when there is a reasonable assurance that the grant will be received, and the Company has complied with all attached conditions.

The following conditions must be met by the Company to receive the EEG:

- The Company must be registered with the Nigerian Export promotion Council (NEPC).
- The Company must have a minimum annual export turnover of N5 million and evidence of repatriation of proceeds of exports.
- The Company shall submit its baseline data which includes audited financial statements and information on operational capacity to NEPC.
- An eligible company shall be a manufacturer, producer or merchant of products of Nigerian origin for the export market (i.e. the products must be made in Nigeria).
- Qualifying export transaction must have the proceeds fully repatriated within 300 days, calculated from the date of export and as approved by the EEG Implementation Committee.

2.18 Revenue recognition from Contracts with customers

The Company is in the business of manufacturing and sales of glassware and glass bottles for soft drinks, breweries, pharmaceutical and cosmetic companies among others.

Revenue from contracts with customers is recognized when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue comprises the fair value for the sale of goods and services net of value-added tax, rebates and discounts.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received or receivable for goods supplied stated net of discounts, returns and value added taxes. Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- the Company has identified a sales contract with a customer;
- the performance obligations within this contract have been identified;
- the transaction price has been determined;
- this transaction price has been allocated to the performance obligations in the contract; and
- revenue is recognized as or when each performance obligation is satisfied.

The sale of bottles is based on Ex-works prices agreed with the customers. Haulage services are provided to the customers through third party service providers as an option. The sale of bottles and haulage services for delivery of bottles are distinct and have no bearing on each other and are negotiated separately. Further, the consideration to be paid in one contract does not depend on the price or performance of another contract. Goods or services promised in the separate contracts are not a single performance obligation. There are no other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.18 Revenue recognition from Contract with customers – Continued

The company performs an obligation once the products or goods are transferred to the customer, that is ownership, legal title, physical possession, control related to the products has been transferred to the customer and the customer has accepted the products.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of bottles, the Company considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

The consideration to be received is stated in the contract, i.e. invoice as the contract price, which is agreed, accepted and signed by the customer. Revenue comprises the fair value for sales of goods and services net of value-added tax, rebates and discounts. Rebates constitute a variable consideration and are allocated to a single performance obligation affected.

The transaction price as stated in the invoice relates to the performance of obligation by the entity when the goods have been delivered to the customers.

Revenue from the sales of goods is recognised when the ownership and control of the goods are transferred to the buyer. Where goods are picked up by customers, risk is transferred immediately. Where goods are delivered, revenue is recognised when order by the customer is delivered to the customers with the evidence of the delivery note acknowledged/signed by the customers.

Variable consideration

Rebates constitute a variable consideration and are allocated to a single performance obligation affected.

Significant financing component

For bottle sales transactions, the receipt of the consideration by the Company does not match the timing of the delivery of bottles to the customer (e.g., the consideration is paid after the bottles have been delivered). Using the practical expedient in IFRS 15, the Company does not adjust the promised amount of consideration for the effects of a significant financing component since it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

Consideration payable to a customer: No consideration is payable to customers in respect of sales of glass bottles.

Contract balances:

Contract assets: There are no contract assets as all sales are unconditional.

Trade receivables: A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

2.19 Provisions

A provision is recognised if, because of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

2.20 Dividend distribution

Dividend distribution to the Company’s shareholders is recognised as a liability in the financial statements in the period in which the dividends are approved by the Company’s shareholders.

3 Financial instruments risk management

The Company’s business activities are exposed to a variety of financial risks: market risk (including foreign exchange, interest rate and price), credit risk and liquidity risk. The objective of the Company’s risk management programme is to minimise potential adverse impacts on the Company’s financial performance.

Risk management is carried out in line with policies approved by the Board of Directors. The Board provides written principles for overall risk management, as well as sets the overall risk appetite for the Company. Specific risk management approaches are defined for respective risks such as foreign exchange risk, interest rate risk, credit risk, and investment of excess liquidity. The Company’s overall risk management program seeks to minimize potential adverse effects on the Company’s financial performance.

Financial risk management is the responsibility of the Treasury Manager, which aims to effectively manage the financial risk of Beta Glass Plc, according to the policies approved by the Board of Directors. The Treasury Manager identifies and monitors financial risk. The Board provides principles for overall risk management, as well as policies covering specific areas such as foreign exchange, interest rates and credit risks, use of financial instruments and investment of excess liquidity.

The Company’s financial instruments consist of trade and other receivables and trade and other payables, borrowings, cash in hand and at bank.

Risk	Exposure arising from	Measurement	Management
Market Risk- Foreign exchange	Future commercial transactions, recognized financial assets and liabilities not denominated in Naira units	Cash flow forecasting Sensitivity analysis	Contractual agreements on exchange rates.
Market risk – interest rate	Borrowings at variable rates	Sensitivity analysis	Interest rate negotiations
Credit risk	Cash and cash equivalents, trade receivables, and held-to-maturity investments	Aging analysis Credit ratings	Diversification of bank deposits, credit limits and letters of credit. Investment guidelines for and held-to-maturity investments.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities.

3.1 Market risk

Market risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, price risk, such as equity price risk and commodity risk, and interest rate risk. Financial instruments affected by market risk include deposits and loans and borrowings.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

3.1 Market risk – Continued

(i) Foreign exchange risk

The Company is exposed to foreign exchange risks from some of its commercial transactions and recognised assets. The Company buys and imports some of the raw materials used for production, the payments for which are made in US Dollars. Receipts for sales of finished goods in Nigeria are in Naira whilst receipts for sales of finished goods to foreign countries are in US dollars. The Company makes payments and collects receipts primarily in Nigerian Naira. Periodically however, receipts and payments are made in other currencies, mostly in the US dollar and Euro.

Management’s approach to managing foreign exchange risk is to hold foreign currency bank accounts which act as a natural hedge for these transactions.

The Company’s exposure to Euro and US Dollar (USD) is as follows:

	30 September 2025 Euro'000	30 September 2025 USD'000	31 December 2024 Euro'000	31 December 2024 USD'000
Financial assets				
Cash in hand and at bank	2,533	4,760	2,371	1,339
Trade receivables	-	1,326	1,562	173
	<u>2,533</u>	<u>6,086</u>	<u>3,933</u>	<u>1,512</u>
Financial liabilities				
Borrowings	6,672	-	3,466	13,922
Trade payables	15	2,805	1,318	55
Related parties payable	1,266	706	1,192	-
	<u>7,954</u>	<u>3,511</u>	<u>5,976</u>	<u>13,976</u>
Net amount	<u>(5,421)</u>	<u>2,576</u>	<u>(2,043)</u>	<u>(12,464)</u>

Effects of changes in Naira exchange rate on the Company's results:

	30 September 2025 N'000	30 September 2025 N'000	31 December 2024 N'000	31 December 2024 N'000
	Effect on profit before tax Euro	Effect on profit before tax USD	Effect on profit before tax Euro	Effect on profit before tax USD
15 percent strengthening of the Naira to Euro /USD	1,408,537	(569,969)	488,911	2,871,460
15 percent weakening of the Naira to Euro / USD	<u>(1,408,537)</u>	<u>569,969</u>	<u>(488,911)</u>	<u>2,871,460</u>
				-
	30 September 2025 Euro	30 September 2025 USD	31 December 2024 Euro	31 December 2024 USD
Reporting date spot rate of 1 Euro or 1 USD to Naira	1732.21	1475.35	1595.56	1535.82

The above analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting period, but it has no impact on equity. The analysis assumes that all other variables remain constant.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

3.1 Market risk – Continued

(ii) Price risk

The Company is not exposed to price risk as it does not hold any equity instruments or commodity trade at active exchange market.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cashflows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate risk arises from borrowings. Borrowings are issued at floating rates exposing the Company to cash flow interest rate risk which is partially offset by cash held at variable rates. The Company's policy on managing interest rate risk is to negotiate favourable terms with the banks to reduce the impact of exposure to this risk and to obtain competitive rates for loans and for deposits. The Company had short-term and medium-term borrowing as at 30 September 2025 (N43.27 billion) and 31 December 2024 (N26.91 billion, short-term borrowing only) which have fixed and variable interest rate.

Interest rate sensitivity	Increase/decrease in interest rate %	Effect on profit before tax
2025		N'000
Variable rate instrument	+2	16,854
Variable rate instrument	+2	-28
Variable rate instrument	-2	(16,854)
Variable rate instrument	-2	28
2024		
Variable rate instrument	+2	-38,727
Variable rate instrument	+2	-9
Variable rate instrument	-2	38,727
Variable rate instrument	-2	9

3.2 Credit risk

Credit risk is the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is exposed to credit risk from cash and cash equivalents as well as credit exposures to customers, including outstanding receivables and committed transactions.

The Company uses policies to ensure that sales of products are to customers with appropriate credit history. The granting of credit is controlled by credit limits and the application of certain terms of sale. The continuous credit worthiness of the existing customers is monitored periodically based on history of performance of the obligations and settlement of their debt. Appropriate provision for impairment losses is made for specific credit risks. At the year end, Beta Glass Plc considered that there were no material credit risks that had not been covered by Expected Credit Loss (ECL) provisions.

No credit limits on cash amounts were exceeded during the reporting period and management does not expect any losses from non-performance by these counterparties. None of the counterparties renegotiated their terms in the reporting period.

The maximum exposure to credit risk for trade receivables approximates the amount recognized on the statement of financial position. The Company does not hold any collateral as security.

The table below analyses the Company's financial assets into relevant maturity groupings as at the reporting date.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

3.2 Credit risk – Continued

30 September 2025

Financial assets:	Neither past due nor impaired N'000	Up to 90 days N'000	91 - 150 days N'000	Over 150 days N'000	Total N'000
Cash at bank (Note 17)	17,013,454	-	-	-	17,013,454
Trade receivables (Note 16)	10,833,414	2,343,676	99,627	733,522	14,010,239
Receivables from related parties (Note 16)	49,079,589	1,835,341	-	-	50,914,930
Staff advances (Note 16)	115,053	-	-	-	115,053
	77,041,510	4,179,017	99,627	733,522	82,053,676

31 December 2024

Financial assets:	Neither past due nor impaired N'000	Up to 90 days N'000	91 - 150 days N'000	Over 150 days N'000	Total N'000
Cash at bank (Note 17)	10,653,214	-	-	-	10,653,214
Trade receivables (Note 16)	18,967,415	1,078,978	138,391	1,510,165	21,694,949
Receivables from related parties (Note 16)	36,681,895	109,217	8,116	-	36,799,228
Staff advances (Note 16)	191,474	-	-	-	191,474
	66,493,998	1,188,195	146,507	1,510,165	69,338,865

Receivables from related parties and Staff advances are from counterparties with no risk of default.

Security

No security is obtained for trade receivables either in the form of guarantees, deeds of undertaking or letters of credit which can be called upon if the counterparty is in default under the terms of the agreement. The Company's sales transaction model is Business to Business model and major customers are multi-nationals while credit is granted on the strength of their credibility and past performance.

3.3 Impairment of trade and related party receivables

The Company has trade receivables from sales of inventory and provision of haulages services, related party receivables and staff advances that are subject to expected credit loss model.

Cash and cash equivalents are also subject to impairment requirements of IFRS 9, the identified impairment loss was immaterial.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for different customers and the calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in table (maturity grouping) above.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance for all trade receivables and contract assets.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

3.3 Impairment of trade and related party receivables - Continued

Expected credit loss measurement - other financial assets

The Company applies the general approach in computing expected credit losses (ECL) for intercompany receivables. The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The ECL is determined by projecting the probability of default (PD), loss given default (LGD) and exposure at default (EAD) for each future month and for each individual exposure. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The 12-month and Lifetime PDs are derived by mapping the internal rating grade of the obligors to the PD term structure of an external rating agency for all asset classes. The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type. The assumptions underlying the ECL calculation, such as how the maturity profile of the PDs, etc., are monitored and reviewed on a regular basis. There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

3.4 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk is managed by maintaining sufficient cash reserves to always meet operational needs so that the Company does not breach any borrowing limit. The Company manages liquidity risk by effective working capital and cash flow management.

Beta Glass Plc invests its surplus cash in interest bearing accounts. At the reporting date the Company had no investment in interest bearing account except Unclaimed dividend fund of N189 million (December 2024: N188 million) in interest bearing accounts.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted cash flows.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements - Continued

3.4 Liquidity risk – Continued

At 30 September 2025	Less than 3 months N'000	3 months to 12 months N'000	Total N'000
Financial liabilities:

Borrowings	26,910,912	-	26,910,912
	55,948,852	325,893	56,274,745

3.5 Capital risk management

The objective in managing capital is to safeguard the Company's ability to continue as a going concern to maximise returns for shareholders and benefits for other stakeholders, as well as maintaining the optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, capital returned to shareholders, new shares issued, or debt raised.

Consistent with others in the industry, the Company monitors capital monthly using the gearing ratio. This ratio is calculated as net debt divided by total equity. Net debt is calculated as borrowings plus trade and other payable less Cash in hand and at bank. Total equity is calculated as the sum of all equity components on the statement of financial position.

The gearing ratios:	30 September 2025 N'000	31 December 2024 N'000
Borrowings	43,236,630	26,910,912
Trade and other payables	29,045,990	32,138,773
Less: Cash in hand and at bank	(17,013,952)	(10,653,614)
Net Debt	55,268,668	48,396,071
Total equity	90,245,925	64,791,883
Gearing %	61.2%	74.7%

3.6 Financial instruments which are carried at other than fair value

The carrying value of all financial assets and financial liabilities is a reasonable approximation of fair value. The approximation is due to the short-term nature of the instruments. No further disclosure is required.

4 Critical accounting estimates and judgements

Critical accounting policies and key sources of estimation uncertainty

The preparation of financial statements requires directors to use judgment in applying its accounting policies and estimates and assumptions about the future. Estimates and other judgments are continuously evaluated and are based on directors' experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. Significant accounting judgments and estimates made in the preparation of the financial statements is shown below.

Plant and machinery

Plant and machinery are depreciated over its useful life. Beta Glass Plc estimates the useful lives of plant and machinery based on the period over which the assets are expected to be available for use. The estimation of the useful lives of plant and machinery are based on technical evaluations carried out by those staff with knowledge of the machines and experience with similar assets. Estimates could change if expectations differ due to physical wear and tear and technical or commercial obsolescence. It is possible however, that future results of operations could be materially affected by changes in the estimates brought about by changes in factors mentioned above. The amounts and timing of expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of the plant and machinery would increase expenses and decrease the value of non-current assets.

Export Expansion Grant and Negotiable Duty Credit Certificate

Export Expansion Grant (EEG) is a very vital incentive of the Federal Government of Nigeria required for the stimulation of export-oriented activities that will lead to significant growth of the non-oil export sector. Having met the eligibility criteria and registered under the scheme by the Nigerian Export Promotion Council (NEPC), the Company is entitled to a rebate on export sales in as much as it can demonstrate that the proceeds of the related sales have been repatriated through an approved channel to the country within 300 days of such export sales.

The rebate is recognised as a credit to cost of sales and as a receivable from the Federal Government of Nigeria (i.e. EEG receivable). As at 30 September 2025, EEG receivable stood at N3.28billion (31 December 2024: N2.78 billion) as disclosed in Note 16.

Although EEG receivables have been outstanding for more than 1 year, no impairment charge has been recognised because they are regarded as sovereign debts. Moreover, Government has not communicated or indicated unwillingness to honour the obligations. Thus, the outstanding balances are classified as current assets accordingly.

Deferred Tax

Deferred tax is the tax expected to be payable on differences between the carrying amounts of assets / liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Such liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other liabilities in a transaction that affects neither the tax profit nor the accounting profit. Management has calculated the deferred tax liability and deferred tax asset based on estimated amounts of underlying transactions. Actual amounts may differ from estimated balances.

Notes to the Unaudited Interim Financial Statements – Continued

5 Segment information

IFRS 8 requires operating segments to be determined based on the Company's internal reporting to the Chief Operating Decision Maker ("CODM"). The CODM has been determined to be the Board of Directors which includes executive directors and other key management. It is the Board of Directors that has responsibility for planning and controlling the activities of the Company.

The company's reportable segment has been identified on a product basis as glass bottles. Beta Glass Plc is a one-segment business.

Customer sales greater than 10% of sales of Beta Glass Plc are shown below:

	30 September 2025		30 September 2024	
	N'000	%	N'000	%
Customer 1	23,497,074	21%	20,619,257	26%
Customer 2	24,829,561	22%	12,487,232	16%
Customer 3	16,777,264	15%	9,554,986	12%
Customer 4	9,641,670	8%	7,949,968	10%

Revenue is generated from local and international sales. An analysis based on customer location is set out below:

	30 September 2025		30 September 2024	
	N'000	%	N'000	%
Local sales	73,855,419	94.4%	39,183,715	81.8%
Export sales	4,377,486	5.6%	8,700,870	18.2%
Total revenue	78,232,905	100.0%	47,884,585	100.0%

The Board of Directors assesses the performance of the operating segments based on profit from operations:

	30 September 2025	30 September 2024
	N'000	N'000
Operating profit	38,778,904	15,547,550

6 Revenue from contracts with customers

Disaggregated revenue information

	30		30	
	July-Sept 2025	September 2025	July-Sept 2024	September 2024
	N'000	N'000	N'000	N'000
Type of goods:				
Sales of glassware and bottles	36,148,983	114,381,890	31,876,641	79,761,228
Geographical markets:				
Local	34,675,319	110,004,404	30,693,053	71,060,358
Export	1,473,664	4,377,486	1,183,588	8,700,870
	36,148,983	114,381,890	31,876,641	79,761,228

Revenue from the sale of bottles is recognised at a point in time, generally upon delivery of the bottles.

Included in sales of glassware and bottles are sales to related party of N24.83 billion (September 2024: N20.62billion). See Note 29.1 for further details.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Selling and distribution expenses (Note 7.3)	21,685	95,893	21,530	69,141
	1,587,115	4,647,662	1,141,877	3,650,251

8 Other income / (loss)

	30	30	30	30
	July-Sept	September	July-Sept	September
	2025	2025	2024	2024
	N'000	N'000	N'000	N'000
Profit on disposal of property, plant and equipment	550,000	571,013	14,248	39,790
Income on transport and others	865,815	2,460,663	732,824	185,091
Proceed from sale of scraps	61,047	201,159	68,849	121,817
	1,476,862	3,232,835	815,921	346,698

9 Foreign exchange gain / (loss)

	30	30	30	30
	July-Sept	September	July-Sept	September
	2025	2025	2024	2024
	N'000	N'000	N'000	N'000
Foreign exchange gain/(loss)	627,875	222,146	(1,215,777)	(1,966,256)

Analysed as follows:

Net Realised loss (Note 9. (ii))	125,153	(125,511)	(2,823,937)	(2,160,461)
Realised loss on borrowings (Note 9 (ii))	(247,610)	(713,639)	(523,835)	(3,522,227)
Unrealised gain	(804,065)	3,126,105	2,827,547	19,477,625
Unrealised loss	1,554,397	(2,064,809)	(695,552)	(15,761,193)
Net foreign exchange loss	627,875	222,146	(1,215,777)	(1,966,256)

(i) Net realised foreign exchange gain arises from receipt of foreign trade receivables, payment of foreign trade payables and movements in domiciliary account balances.

(ii) Realised foreign exchange loss on borrowings relates to the repayment of import finance facilities during the period.

Notes to the Unaudited Interim Financial Statements – Continued

11 Income tax expense

	July-Sept 2025 N'000	30 September 2025 N'000	July-Sept 2024 N'000	30 September 2024 N'000
Income tax	3,814,298	12,095,626	1,830,848	3,724,503
Education tax	381,429	1,209,562	263,047	372,450
Prior year income tax under provision	-	1,074,245	-	-
Income tax from back duty	-	44,402	-	-
	4,195,727	14,423,835	2,093,895	4,096,953
Prior year deferred tax over charged	-	(1,329,023)	-	-
Tax expense	4,195,727	13,094,812	2,093,895	4,096,953

The current tax charge has been computed at the applicable rate of 30% (December 2024: 30%), Education tax of 3% (December 2024: 3%) and Police Trust Fund of 0.005% (December 2024: 0.005%) on the profit for the period after adjusting for certain items of expenditure and income which are not deductible or chargeable for tax purposes. Non-deductible expenses include items such as donations and certain provisions which are not allowed as a deduction by the tax authorities. Tax exempt income includes income such as export profits and gain on disposal of assets, which are not taxable.

The tax on the Company's profit before tax differs from the theoretical amount that would arise using the basic tax rate of the Company as follows:

Effective tax reconciliation

	July-Sept 2025 N'000	30 September 2025 N'000	July-Sept 2024 N'000	30 September 2024 N'000
Profit before tax	12,714,324	40,318,755	6,102,827	12,415,010
Tax at the Nigeria Corporation Tax rate of 30% (2024 :30%)	3,814,297	12,095,627	1,830,848	3,724,503
Tax effects of:				
Non chargeable income	-	(254,779)	-	-
Effect of education tax	381,429	1,209,562	263,047	372,450
Back duty tax provision	-	44,402	-	-
Tax charge for the year	4,195,726	13,094,812	2,093,895	4,096,953
Effective tax rate	33.0%	32.5%	34.3%	33.0%

12 Earnings per share

Basic earnings per share (EPS) is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding at the end of the reporting year.

	July-Sept 2025	30 September 2025	July-Sept 2024	30 September 2024
Profit attributable to shareholders of the Company (N'000)	8,518,597	27,223,943	3,978,932	8,318,057
Weighted average number of ordinary shares in issue ('000)	599,966	599,966	599,966	599,966
Basic Earnings per share (Naira)	14.20	45.38	6.63	13.86

Diluted EPS is the same as the Basic earnings per share as there are no potential securities convertible to ordinary shares.

13 Particulars of Directors and Employees

a) The average number of employees, excluding Directors, employed by the Company during the year was as follows:

	30 September 2025 Number	30 September 2024 Number
Executive Manager	3	2
Senior Manager	36	28
Manager	36	44
Supervisor	82	94
Specialist	219	224
Superintendent	155	163
Junior	285	257
	816	812

b) Salary Range:

The number of employees with gross emoluments excluding retirement benefits within the bands stated below were:

	30 September 2025 Number	30 September 2024 Number
N1,000,001 - N2,000,000	120	205
N2,000,001 - N3,000,000	172	104
Over N3,000,000	524	503
	816	812

Notes to the Unaudited Interim Financial Statements – Continued

18 Borrowings

	30 September 2025 N'000	31 December 2024 N'000
Short-term borrowings	11,557,630	26,910,912
Medium-term borrowings	31,679,000	-
	43,236,630	26,910,912

Changes in Short-term Borrowings

	30 September 2025 N'000	31 December 2024 N'000
Borrowing as at 1 January	26,910,912	24,647,423
Interest charged	1,346,904	9,781,737
Repayment of borrowings during the period	(17,488,759)	(16,171,542)
Interest paid	(12,152,330)	(1,182,285)
Foreign exchange movement	(277,024)	4,801,034
Additional borrowings during the period	13,217,927	5,034,545
Borrowing as at period ended	11,557,630	26,910,912

Short-term borrowings represent Import Finance Facilities (IFFs) in foreign currencies from one bank for the importation of raw materials and plant and equipment at variable interest rates ranging from 8.99% to 12.54% (2024: 8% to 15.37%). The borrowings are typically payable within 30 to 90 days (but can be rolled over).

Changes in Medium-term Borrowings

	30 September 2025 N'000	31 December 2024 N'000
Borrowing as at 1 January	-	-
Interest charged	3,899,390	-
Repayment of borrowings during the period	-	-
Interest paid	(3,899,390)	-
Additional borrowings during the period	31,679,000	-
Borrowing as at period ended	31,679,000	-

The Medium-term borrowing was used to pay down on the short-term borrowing in a loan restructuring arrangement. This borrowing is for a period of five (5) years with a one (1) year moratorium for the payment of principal. Interest is paid quarterly at a floating rate of Monetary Policy Rate (MPR) less 2.5% fixed rate.

BETA GLASS PLC

20 Right-of-Use asset

Company as a lessee

The Company has lease contracts for rented warehouse and guesthouses. Leases of these assets generally have lease terms between 1 and 2 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets. There are several lease contracts that include extension options, which are further discussed below.

The Company has leases for warehouses and guesthouses with lease terms of 12 months or less. For these leases, the Company applies the 'short-term lease' recognition exemption.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period:

	30 September 2025 N'000	31 December 2024 N'000
As at 1 January	17,221	39,852
Additions	73,542	93,076
Depreciation expense	(56,169)	(115,707)
As at period end	34,594	17,221

There were no lease liabilities as at 30 September 2025 (December 2024: Nil) as all lease payments are prepaid.

	30 September 2025 N'000	30 September 2024 N'000
Depreciation expense on right-of-use assets	56,169	61,614
Expense relating to short-term leases (included in Admin and Selling expenses)	438,564	51,306
Total amount recognised in profit or loss	494,733	112,920

The Company had total cash outflows for leases of N73.54 million as of 30 September 2025 (December 2024: N93.07 million).

21 Deferred tax liabilities

The movement in deferred tax is as follows:

	30 September 2025 N'000	31 December 2024 N'000
At 1 January	4,619,910	3,828,471
Changes during the period:		
- charge recognised in tax expense in profit or loss (Note 11)	(1,329,023)	791,439
As at period end	3,290,887	4,619,910

	30 September 2025 N'000	31 December 2024 N'000
Deferred Tax Assets	(3,168,256)	(1,839,233)
Deferred Tax Liabilities	6,459,143	6,459,143
Net Deferred Tax Liabilities	3,290,887	4,619,910

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

21 Deferred tax liabilities - Continued

Deferred tax relates to the following:

	Statement of Financial Position		Statement of Profit or loss	
	30 September 2025	31 December 2024	30 September 2025	31 December 2024
	N'000	N'000	N'000	N'000
Accelerated depreciation for deferred tax purpose	(6,459,143)	(6,459,143)	-	2,194,219
Cash and Trade receivable - unrealised exchange gain	(4,890,174)	(4,890,174)	-	1,502,173
Trade and other payable - unrealised exchange loss and others	6,834,406	5,505,383	(1,329,023)	(2,063,980)
Trade and other receivables - impairment loss	755,551	755,551	-	(556,548)
Inventory - write down and other provisions	468,473	468,473	-	(284,425)
	(3,290,887)	(4,619,910)	(1,329,023)	791,439

22 Trade and other payables

	30 September 2025	31 December 2024
Trade payables	16,506,301	21,100,206
Contract liabilities	551,960	838,355
Social security and transaction taxes	1,973,129	1,936,585
Liability arising from financial guarantee (Note 30)	325,893	325,893
Accrued expenses and other payables	5,286,731	2,640,648
Amounts due to related parties (Note 29b)	4,401,976	5,297,086
	29,045,990	32,138,773

Contract liabilities represent short-term deposits received from customers for the supply of glass bottles.

	30 September 2025	31 December 2024
Balance as at 1 January	838,355	972,735
Customer down payment during the year	1,068,329	838,355
Revenue recognised during the year	(1,354,724)	(972,735)
Balance as at period end	551,960	838,355

22.1 Social security and transaction taxes include VAT, withholding taxes, Pay as You Earn taxes and Pension liabilities.

22.2 Accrued expenses and other payables represent energy expenses accrued, transport income accrued, employee bonus accrued, raw material purchases accrual, etc. as at the period end.
All trade payables are due within twelve (12) months.

**Unaudited Interim Financial Statements
For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

22 Trade and other payables – Continued

22.3 Financial liabilities include:

	30 September 2025 N'000	31 December 2024 N'000
Trade payables	16,506,301	21,100,206
Accrued expenses and other payables	5,286,731	2,640,648
Liability arising from financial guarantee (Note 22.4)	325,893	325,893
Amounts due to related parties (Note 29)	4,401,976	5,297,086
	<u>26,520,901</u>	<u>29,363,833</u>

22.4 Set out below is the movement in liability arising from financial guarantee:

	30 September 2025 N'000	31 December 2024 N'000
As at 1 January	325,893	-
Provision during the year	-	325,893
As at period end	<u>325,893</u>	<u>325,893</u>

23 Current income tax

The movement in current income tax is as follows:

	30 September 2025 N'000	31 December 2024 N'000
At 1 January	5,701,684	2,930,005
Provision for the year (Note 11)	13,305,188	5,485,104
Prior year under provision and back duty	1,118,647	-
Payment during the year	(6,097,552)	(2,445,190)
Withholding tax credit utilised	(749,998)	(268,235)
At period end	<u>13,277,969</u>	<u>5,701,684</u>

**Unaudited Interim Financial Statements

Notes to the Unaudited Interim Financial Statements – Continued

24 Dividend payable

	30 September 2025 N'000	31 December 2024 N'000
At 1 January	189,035	183,238
Dividend declared during the year	1,769,901	839,953
Dividend paid during the year (Note 27)	(1,639,807)	(839,953)
Dividend payable reclassified to related party	(130,094)	-
Unclaimed dividend (refunded)/returned	(61,077)	5,797
As at period end	127,958	189,035
Dividend per share (Naira)	2.95	1.40

Unclaimed dividends returned relate to dividends declared but not claimed for a period of 15 months or more. In accordance with Section 432 of the Companies and Allied Matters Act (CAMA) 2020, unclaimed dividends outstanding for over 12 years become statute-barred and are transferred to retained earnings. However, the Federal Government of Nigeria (FGN), through the Finance Act 2020, established the Unclaimed Funds Trust Fund (the "Trust Fund") to warehouse unclaimed dividends that have remained unclaimed for a period of not less than six years from the date of declaration. Pursuant to this, the Securities and Exchange Commission (SEC) issued a directive requiring the transfer of such unclaimed dividends to the Trust Fund. In compliance with this directive, the sum of ₦90.83 million has been transferred to the Unclaimed Funds Trust Fund.

29 Related parties

The Company is a member of the Frigoglass Group and is thus related to other subsidiaries of the Company through common shareholdings and common directorships. Transactions arising from dealings with related parties are as detailed below.

The Company is controlled by Frigoglass Industries (Nigeria) Limited, which holds 61.9% (2024: 61.9%) of the Company's issued ordinary shares. The ultimate holding company is Frigo DebtCo Plc (incorporated in United Kingdom). All related party transactions were conducted under terms equivalent to those that prevail in arm's length transactions.

The following companies are related parties of Beta Glass Plc:

- Frigo DebtCo Plc - Ultimate parent and ultimate controlling party
- Frigoglass Industries (Nigeria) Limited - Parent company
- Frigoinvest Holdings B.V. - First Intermediate parent company
- Frigoinvest Nigeria Holdings B.V. - Intermediate parent company
- Frigoglass Finance B.V. - Subsidiary of Frigoinvest Holding B.V.
- Frigoglass Global Limited - Subsidiary of Frigoinvest Nigeria Holdings B.V.
- Frigoglass Services Single Member SA - Subsidiary of Frigoinvest Holdings B.V.
- Leventis Nigeria Limited - Indirect shareholders with significant influence over the parent company of Beta Glass Plc
- Nigerian Bottling Company Limited - Shareholder with power to participate in the operating and financial decisions of the parent company of Beta Glass Plc.

29.1 Transactions with related parties

The following transactions took place between the Company and its related parties during the period:

(i) Sales of goods and services

	30 September 2025	30 September 2024
	N'000	N'000
Sales of goods:		
Nigerian Bottling Company Limited	24,829,561	20,619,257
	24,829,561	20,619,257

Goods are sold based on the price list in force and credit period ranges from 30 to 75 days. Accordingly, they are at arms' length.

(ii) Purchases of goods and services

	30 September 2025	30 September 2024
	24006	N'000
Frigoglass Global Limited	3,688,816	2,569,199
Frigoglass Services Single Member SA	1,300,280	-
A.G. Leventis Nigeria Limited	1,251,649	236,649
	6,240,745	2,805,848

The transaction with Frigoglass Global limited was for the supply of technical know-how to Beta Glass Plc. The know-how fee represents 3% of net sales and included Value Added Tax (VAT) at 7.5% (2024: 7.5%). The transactions with A.G. Leventis Nigeria Limited are for supply of haulage services. Purchases of goods and services are at prices comparable to those obtainable from third parties. Frigoglass Services Single Member S.A. provides management services to Beta Glass. In addition, it recharges Information Technology (IT) costs incurred on behalf of Beta Glass.

29.2 Due to related companies

This represents the balance due to related parties stated below as at period ended:

Related Party	Description	30	31
		September	December
		2025	2024
		N'000	N'000
Frigoglass Global Limited	Purchase of services	3,088,337	2,518,314
Frigoinvest Holding BV	Purchase of services	581,048	537,953
Frigoinvest Nigeria Holding BV	Dividend due to shareholder	130,094	-
Frigoglass Services Single Member SA	Payment on behalf for services	446,451	2,140,013
A.G. Leventis Nigeria Limited	Purchase of services	156,046	100,806
		4,401,976	5,297,086

The payables to related parties arise mainly on purchases and services from related parties with short-term settlement period / or payable on demand. The payables bear no interest.

29.3 Due from related companies

This represents the balance due from related parties stated below as at period ended:

	Description	30	31
		September	December
		2025	2024
		N'000	N'000
Nigerian Bottling Company Limited	Sales of Bottles and purchase of cullet	9,543,424	3,161,387
Frigoglass Industries (Nigeria) Limited	Current account	404,943	-
Frigoglass Industries (Nigeria) Limited	Inter-company loan	40,966,563	33,637,841
		50,914,930	36,799,228

The receivables from related parties primarily arise from sales transactions, intercompany loan, and payments made on behalf of other related companies, all with short-term settlement periods, except for the loan due from Frigoglass Industries (Nigeria) Limited. These receivables are unsecured and bear no interest, except for the intercompany loan. There are impairment provisions amounting to N25.38 million (December 2024: N25.38 million).

30 Contingent liabilities

Legal proceedings

The Company is currently involved in five (5) litigations as at 30 September 2025 (December 2024: five (5) litigations). The claims against the Company from the suits amount to N7.57 billion (31 December 2024: N7.57 billion) as of reporting date. No provision has been made for these claims as no judgement has been delivered. Based on legal advice, the Company believes that no significant loss will eventuate.

Guarantee

Guarantee in April 2023, the Frigoglass Group successfully completed a recapitalisation transaction (the "Transaction") that included the issuance of €75 million Senior Secured Notes due 2026 and €150 million (excluding consent fee) Senior Secured Second Lien Notes due 2028 (the "Reinstated Notes"). The Senior Secured Notes and the Reinstated Notes are listed on the Vienna Stock Exchange. In October 2024, the Frigoglass Group also issued €20 million Senior Secured Notes due 2026 (the "New Senior Secured Notes").

The New Senior Secured Notes were issued by utilizing existing debt capacity within the documentation governing the Group's €75 million Senior Secured Notes and €150 million Reinstated Notes. The Senior Secured Notes, Reinstated Notes and New Senior Secured Notes are guaranteed on a senior secured basis by Frigoinvest Holdings B.V., Beta Glass Plc, Frigoglass Industries (Nigeria) Limited and certain other subsidiaries of the Frigoglass Group (the "New Notes Guarantors"). The Senior Secured Notes, Reinstated Notes and New Senior Secured Notes are also secured by certain assets of the New Notes Guarantors and share pledges

For the Period Ended 30 September 2025**

Notes to the Unaudited Interim Financial Statements – Continued

30 Contingent liabilities - Continued

As part of the undertakings in connection with the Transaction, on 30 May 2023, a reorganization involving, inter alia, Frigoinvest Holdings B.V., Frigoinvest Nigeria Holdings B.V., Frigoglass Industries (Nigeria) Limited, Beta Glass Plc and Frigoglass Global Limited was implemented for the transfer by Frigoinvest Holdings B.V. of all shares held by it (directly and/or indirectly) in each of Frigoglass Industries (Nigeria) Limited, Beta Glass Plc and Frigoglass Global Limited to Frigoinvest Nigeria Holdings B.V., a newly formed entity in connection with the Transaction (the “Reorganization”).

31 Commitments

At 30 September 2025, the Company had commitments of N1.04 billion (December 2024: N9.83 billion) with a bank relating to purchase of raw materials, equipment and spare parts. The Company also had bond/guarantee of N2.56 billion (December 2024: N1.90 billion) for supply of gas and power with gas suppliers and power generating facility provider.

32 Subsequent events

There were no events after the reporting date which could have had a material effect on the state of affairs of the Company as at 30 September 2025 and on the profit for the year ended on that date which have not been adequately provided for or recognised.

33 Securities trading policy

In compliance with Rule 17.15 of the Nigerian Stock Exchange Amended Rules, the Company has a Securities Trading Policy in place which serves to guide its Directors, Management, Officers and related persons in dealing with its shares. All concerned are obliged to observe the provisions of the Regulations when dealing in the Company’s shares and securities. The Company is not aware of any infringement of the policy during the period.

34 Compliance with regulatory bodies

There were no instances of non-compliance matters with respect to regulatory bodies for the quarterly period ended 30 September 2025.

35 Prior-year comparative

Certain prior-year comparative figures have been reclassified to conform to the current year’s presentation format. In particular, the intercompany loan granted by the Company to Frigoglass Industries (Nigeria) Ltd has been reclassified under investing cash flows, in line with the guidance provided by IAS 7 on the classification of cash flows.
